

SUZUKI PERFORMANCE NOTEBOOK

Lake Walloon , MI

Suzuki Marine

Test Date: 8/5/19

Test Boat: Tahoe GT 2185

Boat Type: Twin-Log Pontoon

Test Motor: DF90ATL

Material	Aluminum																																																	
Length	21'																																																	
Beam	8' 6"																																																	
Weight (Dry)	1850 lbs																																																	
Maximum HP	115 hp																																																	
Fuel Capacity	25 gallons																																																	
Transom Height	20"																																																	
Steering	SeaStar Cable																																																	
Suzuki																																																		
Engine Type	Inline 4 cylinders																																																	
HP	90 hp																																																	
Displacement	1502 CC																																																	
Operating Range	5300-6300 rpm																																																	
Weight	343 lbs																																																	
Lubrication	Wet Sump																																																	
Fuel Delivery	Multi Point EFI																																																	
Ignition	Solid State																																																	
Propeller																																																		
Material	Aluminum																																																	
Diameter/Pitch	13.5 X 15																																																	
Number of Blades	3																																																	
Mounting Height																																																		
Hole Position	Flat on Transom																																																	
Jack Plate	N/A
